I was very impressed with professionalism of All your staff. I was very stressed but all of them made me to feel relaxed. Starting from my doctor Antonakas Panagiotis(he's contact with patient and professionalism is outstanding)all staff in admission office and nurses. Everybody is very helpful polite and smiley all the time. Can't express with the words how good they made to feel in this difficult time. Thank you and well done to All of You.

I can only say health and safety amazing! Doctors(especially Dr Sylvia) are the best ive ever seen and had so far in my life!! It is truely amazing seeing this clinic just keep raising the standards of healthcare, you are surely the best for me and my family and a big thank you to everyone. Congratulations for such high standards its more than a 5 everything it is truely perfecion. Even though you are part of gesy where some clinics have lowered the quality of care, food etc you are raising standards non stop to the highest i have ever seen. Keep going you are the best and i am truely blessed to have all my doctors there. I have been in and out since june 2022 where i was battling 2 cancers at once. This time i was here for my daughter M. C. I want to say if it wasant for your amazing team and that you have been able to take care of me with the chemotherapy with you i dont think i could have gotten to the stage of remission without your staffs support especially again my Dr Sylvia Lazaridou who was above and beyond her duties as a personal doctor with constant support 24hours daily and also my amazing surgeon Dr Petrides(truely the best surgeon i have ever seen) Also a big thank you to Dr Vergoulidou for getting me to remission. There is no higher standard i have seen yet. Thank you with all my heart no question you are the best clinic for me in cyprus. Thank you xxx
