S.S.C. "Everything was great. I have been using the Evangelismos Hospital for 20 years. My only sadness is, the hospital has not remained as a private hospital. I now have to go to Limassol to find a private hospital. I have always promoted the Evangelismos. I was an ICU nurse till my arrival in Cyprus in 2000. I had a very pleasant day case surgery today. I would also like to compliment my nurse that attended to me this morning, she was just lovely, kind, chatty, friendly, and very professional in her work. I didn't catch her name but she lives in Polis".
